## THE LYRICS

### SYMPHONY

Just one voice breaks the silence  
Just one spark lights a flame  
Every heart beats a rhythm  
We are different but the same

All our mothers and fathers  
Stood underneath these stars  
We're the children, we're the future  
It's time to play our part

**(Chorus)**

**We're a living symphony  
You and I and everyone together  
We're the sound playing out  
All around the world  
We are making history  
Singing out a song that lasts forever  
Starts with just one melody  
Together  
We are a symphony**

Takes one dream to inspire  
The greatest show on this earth  
Celebrating each other  
So this moment can be heard

So fire up your voices,  
singing as one  
Light up your torches,  
beat your own drum!

**(Chorus)**

**We're a living symphony.... etc**
