

BCMG Summer Composing Challenge – compose your own music using the ideas below.

If you can, record it and send to [learning@bcmg.org.uk](mailto:learning@bcmg.org.uk). We'd love to hear your creations!

Listen to bird song in your garden, woods or a park and compose your own	Steal an idea from music you know and create a completely new piece of music from it	Compose a fanfare for a gold medal winning Olympic athlete	Use only one note to create a whole piece of music – just don't bore me!	Record sounds and use the software Audacity to edit, sequence and layer the sounds	Compose a piece of music using your noisy toys
Doodle as you listen to music, then use your doodle to inspire new music	Create a 1-minute soundtrack for a nature documentary clip	Find a machine in your house that makes a rhythm or sound and jam along to it	Compose a jingle to advertise your favourite food	Tell a story through sound	Compose a melody only using these notes D E G A
Create music which describes different kinds of rain	Make a theme tune for a superhero, story character or mythical beast	Compose music that only uses metal sounds	Create music that starts softly and gets louder and louder	Compose a piece for all your family to play	Include this rhythm in your music... 
<b>Continue this melody.....</b> 	Compose music using five objects, from your house, that make interesting sounds	Find an interesting skyline and use the shape to make a melody	Compose music using natural objects you find outside	Go to a museum and choose an object to inspire your music	Compose using <a href="https://synesthesia.integra.io/">https://synesthesia.integra.io/</a>
