

Magic Music

When we are joined through our music
there's no need to feel the fear
The magic flows right throughout us
to remind us that we are here

Singing helps to keep us grounded
to the earth on which we tread
listen to us sing together
By our hearts we will be lead

We are one with our voices
And the instruments that play,
The magic flows right throughout us
we sing proudly come what may

Music lifts us ever higher
From the earth on which we tread
Hear us play and sing together
By our hearts we will be lead
